PROFILE SUMMARY

MCA candidate (2025) with hands-on experience in Python (FastAPI), RESTful API development, and SQL. Strong foundation in Java Full Stack Development using Spring Boot and ReactJS. Skilled in backend development, API testing with Postman, and version control using Git (Bitbucket), with problem-solving experience demonstrated through projects in AI fairness auditing, healthcare analytics, and ERP systems.

RELEVANT COURSEWORK

Data structure and Algorithm | Object Oriented Programming | Database Management

EXPERIENCE

WEB APPLICATION DEVELOPMENT INTERN

RAYS and TARANG Technologies LLP ***Aug 2025-Nov 2025***

- Developed a full-cycle Retail ERP solution covering vendor management, inventory movement, sales operations, and finance reporting.
- Built an entity-relationship model with class-based design to handle purchase-to-sale workflows, reconciliation, and audit compliance.

PROJECTS

Employee Management System | *Core Java (OOP, Collections, Generics), Spring Boot* ***Sept 2025***

- Enhanced a Java-based Employee Management System using OOP and Collections
- Implemented CRUD operations with modular class-based design

Optimizing Healthcare Revenue Cycle with Azure Data Engineering | *Azure Data Factory (ADF), Azure Data Lake Storage (ADLS), Azure Databricks, Azure Synapse Analytics* ***July 2025***

- Built an end-to-end Azure data pipeline using ADF, ADLS, Databricks, and Synapse
- Created dashboards and analytical insights using Power BI

Ethical Implications of Machine Learning in Healthcare | ***Java, Weka, Algorithms*** ***Mar 2025***

- Engineered and evaluated ML models (Naïve Bayes, Decision Trees, Logistic Regression) using 10-fold cross-validation.
- Conducted bias and fairness analysis across models, and proposed ethical guidelines for AI use in clinical settings.

A Framework for Auditing Bias in AI-Based Hiring Systems | ***Java, Weka*** ***Jan 2025***

- Expanded and validated a Java-based framework to audit bias in AI-driven hiring systems, integrating Weka and classification algorithms.
- Evaluated hiring decisions using fairness metrics (disparate impact, equal opportunity, demographic parity).

TECHNICAL SKILLS

Languages: Java, SQL, Python, JavaScript, HTML/CSS
Databases: PostgreSQL, MySQL
Frameworks: ReactJS, Fast API, Spring Boot
Developer Tools: Git (Bitbucket), VS Code, Azure
Knowledge: Algorithmic Analysis and Design, Data Structure, REST APIs, POST requests, Backend Development

EDUCATION

Amity University Noida sector-125
MCA CGPA– 7.94 *Aug 2023 – June 2025*
Amity University Noida sector-125
BCA CGPA – 8.38 *Aug 2020 – May2023*

PUBLICATION / RESEARCH

Internet of things in Agriculture | Mentor: Dr. Alka | https://ieeexplore.ieee.org/document/10079313

- Reviewed IoT applications in agriculture, emphasizing smart farming solutions for real-time monitoring, automation, and supply chain optimization.
- Identified key challenges such as data security, scalability, and adoption barriers, and proposed future research directions to improve productivity and reduce post-harvest losses.
